## OUR FAMILY OF PRODUCTS

**The Original:** Delightfully balanced blend of seasonings designed for the adventurous palate. Hints of curry, dill, savory garlic and other spices mingle to make a unique addition to marinades, rubs, chicken and tofu, or as a great finishing spice for fries, popcorn, bloody marys, chips as well as other great snacks and bar munchies. The Original was designed to hold up to heat, cling well to food, and not leave an offensive odor on your fingers. This was accomplished without the aid of extenders or preservatives.

**Southwest Ranch:** Jay applied the same principles he adopted to create The Original when he designed Southwest Ranch. So many seasonings are loaded with ingredients most people can't pronounce. With our Southwest Ranch, you get all of the creamy, buttery, wholesome goodness of Ranch (without the fat!) and the zesty, tangy fiesta of spices south of the Mason-Dixon line. Try it on fish tacos! (Contains Allergens: Milk)

More flavors to come!
